FOR IMMEDIATE RELEASE

The DUALFLUSH® and HALF-FLUSH® Water-Saving Flush Handles Are Introduced

WOODLAND HILLS, CA (January 2009) - AMTC introduces the DUALFLUSH® Model ADH-100 Water Saving Handle for 1.6gpf and 3.5gpf water closets (toilets). The DUALFLUSH® handles were designed to convert existing water closets (toilets) into water-saving dual-flush fixtures (Pull Handle Up For Full Flush- Push Handle Down for Reduced Flush). Results in 30% - 50% water savings. The HALF-FLUSH® Model ADH-101 is a water-saving handle for urinals (Push Handle Down for approximately 50% water savings).

About AMTC

AMTC is a leading manufacturer of advanced plumbing systems and water conservation devices for commercial applications. The company specializes in "touch-free" electronic flush valves, urinal and commercial toilet systems, electronic faucet systems, and electronic soap dispenser systems. All of AMTC's electronic plumbing systems utilize its proprietary Micro-Cam Technology as a more reliable alternative to solenoid technology usually found in most competitor systems.
