## **FOR IMMEDIATE RELEASE**

### **AMTC Introduces the HYBRIDFLUSH® Sidemount for Water Closets (Toilets) and Urinals**

CHATSWORTH, CA (December 2012) - AMTC introduces the HYBRIDFLUSH® Sidemount Series HSM-801 retrofit conversion kit and complete flushometer line for water closets (toilets) and urinals. The HYBRIDFLUSH® Sidemount retrofit conversion kit is easy to install (requires no water shut-off) and adapts to flushometer models from AMTC, Sloan, Zurn, and Helvex (among other brands). The unit includes an all-metal housing and is powered by 4 "C" cell batteries. It features quiet operation, an electronic and a mechanical push button (that keeps working when batteries are drained), and a water saving option. The unique features and the overall reliability of the HYBRIDFLUSH® Sidemount make it the most advanced automatic "hybrid" flushing system in the industry.

#### About AMTC

AMTC is a leading manufacturer of advanced plumbing systems and water conservation devices for commercial applications. The company specializes in "touch-free" electronic flush valves, urinal and commercial toilet systems, electronic faucet systems, and electronic soap dispenser systems. All of AMTC's electronic plumbing systems utilize its proprietary Micro-Cam Technology as a more reliable alternative to solenoid technology usually found in most competitor systems.
