This document discusses our company’s background, proprietary patented technology, and provides an in-depth description of the unique products we proudly offer.

This is an interactive file. Therefore, you can easily access full specification information about any product by simply clicking on the corresponding model number on each product page.

A Model/Parts Index is included in the back of this document for your reference.

About

• AMTC is the leading innovative designer and manufacturer of high quality, reliable, and cost-effective washroom automation systems and water saving devices for the commercial washroom.

• AMTC’s Patented Micro-Cam Technology for automatic sensor flush valves and faucets is the industry’s most innovative and best performing technology.

• AMTC has been granted 30 U.S. and several International patents pertaining to washroom automation and water conservation products.

• AMTC’s award winning products are easy to install and maintain, have a quick pay-back in water savings, and deliver on their promised performance.
Why are AMTC products the most innovative and best performing in the industry?

• AMTC's sensor flush valves and sensor faucets use proprietary Micro-Cam Technology therefore eliminating the need for solenoids – the most common point of failure in competing products.

• AMTC's HYBRIDFLUSH® top mount and side mount sensor flush valves have a true mechanical back-up - will flush when batteries are drained.

• AMTC's proprietary HYBRIDFLUSH® side mount flusher is effectively an “automatic flush handle”, it does not interfere with the operation of the flushometer – a device that has been in use for over 100 years.

• AMTC’s side mount flusher technology is fully programmable, leading to the development of the Automatic Janitor and Flush Genie® for urinals – products specifically designed for high traffic applications such as schools and arenas.

• AMTC’s FIXEDFLO® sensor faucet system is the first High-Efficiency Faucet (HEF) system of its kind. The water flow rate is controlled internally (cannot be altered with or without an aerator due to its tamper proof mechanism).

• AMTC’s HEALTHFLO® sensor faucet system is specifically designed for the healthcare environment. They are designed and engineered to limit cross contamination and the growth of pathogens.

• AMTC’s products save water and provide a significant return on investment.

• AMTC’s sensor products are the best available on the market. They are designed and engineered to last a lifetime.

Sensor Faucets – Faucet Lines

**HYBRIDFLO®**
- Engineered with AMTC’s cutting-edge Micro-Cam Technology and are made of high-grade, low lead compliant solid brass, rewarding you with the rarest of experiences in **beauty, performance, and reliability**.
- Available in various flow rates.
- Ideal for all facilities.

**FIXEDFLO® (FF)**
- The first and only High-Efficiency Faucet (HEF) system of its kind.
- Designed specifically for facilities where water conservation is a priority. This faucet system is programmed to stream water at a **preset flow rate that cannot be externally altered**, even by the use of an aerator.
- Available in 0.35 and 0.5 gpm flow rates.
- Designed for water savings.

**HEALTHFLO® (HF)**
- Engineered with **anti-bacterial components** and designed for healthcare environments.
- Strict healthcare compliance.
- Incorporates AMTC’s cutting-edge Micro-Cam Technology and are made of high-grade, low lead compliant solid brass and surgical stainless steel, rewarding you with the rarest of experiences in beauty, performance, and reliability.

Sensor Faucets – Unique Features

- Multiple Power Sources (Hybrid Design)
- Reliable Micro-Cam Technology
- Advanced Flow Pin Technology
- First & Only High Efficiency Faucet (HEF) in the Market for Ultimate Water Savings
- More Hygienic Environment
- Low Lead Compliant
- 5-Year Warranty
Sensor Faucets – Micro-Cam Technology

AMTC’s Patented Micro-Cam Technology is also the industry’s most innovative and best performing faucet technology

**Motor**
Tested over 5 million cycles. Dry operation assures durability and long life.

**Patented Micro-Cam Technology**
All-brass gear mechanism proven to last longer than the traditional wet solenoid mechanism.

**Patented Flow Pin**
More reliable than a traditional diaphragm system. Designed to work under harsh water conditions.

**Patented Ball Relief Valve (BRV®)**
Innovative design triggers faucet with minimal parts and complexity.

Sensor Faucets - Flow Pin Technology vs. Diaphragm

Competitors’ Diaphragm Technology vs. AMTC’s Patented Flow Pin Technology

- **Competitors’ Faucet Diaphragm Technology**
  - ✗ Wear and tear of rubber material in diaphragm leads to failure
  - ✗ Diaphragms may be conducive to bacteria growth (surface area has grooves where bacteria can grow)
  - ✗ Failure is expensive
  - ✗ Costly replacement needed

- **AMTC’s Patented Faucet Flow Pin Technology**
  - ✓ Durable stainless steel/copper material design provides durability and long life
  - ✓ Stainless steel/copper material is not conducive to bacteria growth (copper has antibacterial properties)
  - ✓ Successfully tested over 5 million cycles
  - ✓ No replacement needed/5 Year Warranty

HG01 Hydro-Powered Electric Generator

AD01 AC Power Plug-in Adapter For Faucets Only

AD01-3 AC Power Plug-in Adapter With Extension for up to 4 Faucets

Water Mixing Options

MV Mechanical Mixing Valve

TMV Thermostatic Mixing Valve

Cover Plate Options

CP4 Cover Plate for 4” Center Set (6.25” Long)
CP8 Cover Plate for 8” Center Set (10.25” Long)
CP8-1 Cover Plate for 8” Center Set (12.25” Extra Long)

Sensor Soap Dispensers - Accessories

Alternate Power Options

AD05 AC Power Plug-in Adapter For Sensor Soap Dispensers Only

AD05-2 AC Power Plug-in Adapter With Extension for 2 Devices (For Sensor Soap Dispensers and/or Faucets)
LIQUIDFLO™
Automatic Liquid Soap Dispenser System

ASD-400
Counter Mount Automatic Liquid Soap Dispenser

ASD-400EL
Counter Mount Automatic Liquid Soap Dispenser w/Extra Long Spout

SYSTEM BENEFITS:
• Solid brass spout designed to withstand vandalism
• Non-proprietary universal refillable liquid soap bottle
• Eliminates the need for expensive proprietary cartridge refills, thus reducing post-consumer waste by as much as 57%.
• Dispenses economical non-proprietary liquid soap refills available on the open market. Provides savings of 80% or more versus proprietary cartridges. Return on investment (ROI) averages one (1) year.
• Ideal counter mount system dispenses liquid (lotion) soap
• Easy to install and maintain
• Battery operated or AC power options

FOAMFLO®
Automatic Foam Soap Dispenser System

ASD-500
Counter Mount Automatic Foam Soap Dispenser

ASD-500EL
Counter Mount Automatic Foam Soap Dispenser w/Extra Long Spout

SYSTEM BENEFITS:
• Solid brass spout designed to withstand vandalism
• Non-proprietary universal refillable foam soap bottle
• Eliminates the need for expensive proprietary cartridge refills, thus reducing post-consumer waste by as much as 57%.
• Dispenses economical non-proprietary foam soap refills available on the open market. Provides savings of 80% or more versus proprietary cartridges. Return on investment (ROI) averages one (1) year.
• Ideal counter mount system dispenses rich foam soap
• Easy to install and maintain
• Battery operated or AC power options

Manual Flushometers

Urinal Flushometers

- Exposed Manual Flushometer for Urinals
- Highly Durable Design
- Solid Brass Construction
- Proprietary High-Performance Silicone Diaphragm
- All Components Interchangeable with Sloan® and Zurn® Repair Parts
- 5-Year Warranty

Urinal Models Available:
- MF-700-U18 - 0.125 gpf (0.5 Lpf)
- MF-700-U05 - 0.5 gpf (1.9 Lpf)
- MF-700-U10 - 1.0 gpf (3.8 Lpf)

Toilet Flushometers

- Exposed Manual Flushometer for Water Closets (Toilets)
- Highly Durable Design
- Solid Brass Construction
- Proprietary High-Performance Silicone Diaphragm
- All Components Interchangeable with Sloan® and Zurn® Repair Parts
- 5-Year Warranty

Toilet Models Available:
- MF-700-T11 - 1.1 gpf (4.2 Lpf)
- MF-700-T12 - 1.28 gpf (4.8 Lpf)
- MF-700-T16 - 1.6 gpf (6.0 Lpf)

Dual-Flush Toilet Flushometers

- Exposed Dual-Flush Manual Flushometer for Water Closets (Toilets)
- Smart Solution for Saving Water
- Push Handle DOWN for Liquid Waste and Pull Handle UP for Solid Waste
- Up To 30% Water Savings
- No Significant Behavioral Change is Necessary
- Proprietary High-Performance Silicone Diaphragm
- 5-Year Warranty

Dual-Flush Toilet Models Available:
- MF-700-DFT16 - 1.6/1.1 gpf (6.0/4.2 Lpf)

Manual & Sensor Flush Valves - Silicone Diaphragm Technology

Competitors’ Rubber Diaphragm Technology vs. AMTC’s High Performance Silicone Diaphragm Technology

 Competitors’ Permex® Rubber Diaphragm Technology

- Permex® Rubber
- NOT Chloramine Resistant
- Deteriorates Rapidly/Requires Frequent Replacement

 AMTC’s High Performance Silicone Diaphragm Technology

- Silicone Rubber
- Chloramine Resistant
- Proven to Outlast Natural Rubber Diaphragms/Last Significantly Longer Than Rubber
Benefits:
- **Green Solution** - Reduces Water Usage by Approx. 30%
- **No Behavioral Change Required** by Users to Start Saving Water
- Low Cost Solution to Achieve High Efficiency Standards – May Earn LEED Points
- Promotes Eco Friendly Image of Facility
- Eliminates Costly Replacement of Porcelain Fixtures
- Easily Converts Most Commercial Water Closets (Toilets) into High Efficiency Fixtures
- No Costly Professional Installation Required
- Excellent Return on Investment (ROI)

Features:
- Retrofit Handle for Water Closet (Toilets)
- Unique Patented Internal Mechanism
- Push Handle DOWN for Reduced Flush
- Pull Handle UP for Full Flush
- Universal Usage Instructions on Handle

The competition offers a Dual-flush handle that yields water savings in the opposite direction. UP for water savings = Wrong Way!

---

Benefits:
- **Green Solution** - Reduces Water Usage by Approx. 50%
- **No Behavioral Change Required** by Users to Start Saving Water
- Low Cost Solution to Achieve High Efficiency Standards – May Earn LEED Points
- Promotes Eco Friendly Image of Facility
- Eliminates Costly Replacement of Porcelain Fixtures
- Easily Converts Most Commercial Urinals into High Efficiency Fixtures
- No Costly Professional Installation Required
- Excellent Return on Investment (ROI)

Features:
- Retrofit Handle for Urinals
- Unique Patented Internal Mechanism
- Push Handle DOWN for Reduced Flush
- Universal Usage Instructions on Handle

The competition does not offer this product!
AMTC’s Patented Micro-Cam Technology is the industry’s most innovative and best performing automatic flusher technology

Motor
Tested over 5 million cycles. Dry operation assures durability and long life.

Proprietary Silicone Diaphragm
Chloramine resistant. Designed to outlast traditional rubber diaphragms in harsh water conditions, including recycled water or grey water systems.

Patented Micro-Cam Technology
All-brass gear mechanism proven to last longer than the traditional wet solenoid mechanism.

Patented Ball Relief Valve (BRV®)
Innovative design allows for independent automatic and manual flush triggers.

Sensor Flush Valves - Micro-Cam Technology vs. Solenoid

AMTC’s Micro-Cam technology is superior to Solenoid technology

Solenoid Technology

- Electro-magnetic component in contact with water leads to corrosion
- Corrosion leads to failure
- Failure is expensive
- Fails quickly in grey water systems
- Costly replacement needed

AMTC’s Micro-Cam Technology

- Brass/stainless steel motor mechanism
- Dry operation/no electro-magnetic components prevents corrosion
- Successfully tested over 5 million cycles
- Works well in grey water systems
- No replacement needed/5 Year Warranty
