## CERTIFICATE OF LISTING

IAPMO Research and Testing, Inc. is a product certification body in which its product certification system includes inspection and testing of samples taken from the supplier's stock or from the market or a combination of both to verify compliance to the requirements of applicable codes and standards. This activity is coupled with periodic surveillance of the supplier's factory and/or warehouses as well as the assessment of the supplier's Quality Assurance System. This listing is subject to the conditions set forth in the characteristics below and is not to be construed as any recommendation, assurance or guarantee by IAPMO Research and Testing, Inc. of the product acceptance by Authorities Having Jurisdiction.

*Issued To:*

### ADVANCED MODERN TECHNOLOGIES CORPORATION (AMTC)

8367 CANOGA AVE CANOGA PARK, CA 91304 , United States

*Product:*

### Flushometer Valves (Urinal or WC)

## CERTIFICATE OF LISTING

**Issued To:** ADVANCED MODERN TECHNOLOGIES CORPORATION (AMTC)

**Effective Date:** March 2024

**File Number:** 7775

**Product:** Flushometer Valves (Urinal or WC)

**Void After:** March 2029

This certificate is not evidence of current listing. To verify listing status, visit the IAPMO R&T Product Listing Directory at [pld.iapmo.org](http://pld.iapmo.org)

### Identification:

The product shall be permanently marked with the manufacturer's name or trademark or other mark or, in the case of private labeling, the name, trademark, or other mark of the customer for whom the product was manufactured, and a line and the letters "CL" to indicate the critical level. The flushometers shall also permanently identify their average water consumption in litres per flush (Lpf) and gallons per flush (gpf). For manually activated dual flush flushometers, identification of flush mode options shall be depicted on the actuator. This identification shall be either by graphic display or lettering, or shall be intuitively apparent. The product shall also bear the cUPC® certification mark.

### Characteristics:

Flushometer valves must be equipped with a backflow prevention device. For valves equipped with a vacuum breaker, the critical level marking is to be at least six inches above the flood level rim of a water closet or the highest point of a urinal. To be installed in accordance with the manufacturer's instructions, and the provisions of the latest editions of the Uniform Plumbing Code and the National Plumbing Code of Canada.

Products listed on this certificate have been tested by an IAPMO R&T recognized laboratory. This recognition has been granted based upon the laboratory's compliance to the applicable requirements of ISO/IEC 17025.
